 : 0307-9271839

 :Street no.9 Niazi Colony ,RAHIM YAR KHAN

As an experienced Angular developer, I have a strong understanding of the framework's architecture and a proven track record of building robust, scalable web applications. With two years of experience working with Angular 2+ I am highly proficient in TypeScript, JavaScript, HTML, and CSS. Throughout my career, I have worked on a variety of projects, from small web applications to large-scale enterprise solutions. I am skilled in creating custom components, directives, and services, and I have a keen eye for creating clean and maintainable code.
